

Meta Prep - Year 6 Offer

Parents entrust us with their child's senior school preparation because they want success and our approach is designed to support families and pupils throughout the process. Every school has different admissions criteria and this makes the final months a challenge for parents and pupils alike. **In Year 6**, the focus is on specific school requirements and specialist papers to ensure that each child is fully equipped and prepared. We create a bespoke plan for the final crucial months leading up to the 11+ exams to ensure success.

Our central focus at Meta Prep, it's even in our name, is about underpinning learning with a repertoire of cognitive (thinking) tools and strategies. Equipping children with the capacity to understand themselves, reflect on their own learning and know how to make progress; whatever challenge they are set. This results in significant additional progress to previously predicted grades and develops a lifelong love of learning that enables children to thrive in the exams, their secondary schools and beyond.

OUR OFFER

Everything you need to successfully navigate the 11+ in one place:

1. Clear, trustworthy advice about schools.
2. Knowledge of entry requirements to each school.
3. Outstanding face-to-face teaching, online.
4. Regular progress tests using 11+ style questions.
5. An educational methodology that will future-proof your child beyond the 11+ - teaching and equipping children how to think and learn effectively.
6. Technology that enables us to have oversight of individual pupil progress.
7. Mock exams to prepare for the final assessment.
8. Mock Interview practice sessions.

HOW IT WORKS

In addition to 1:1 sessions, you will receive:

1. A Motivation Map identifying ways to motivate your child.
2. Baseline Diagnostic Assessments in English, Maths and Reasoning to assess gaps in knowledge and mapped against the 11+ curriculum for your school.
3. The Digital Platform: access to extensive 11+ style questions to review and help master topics quickly and improve exam skills.
4. Experienced 11+ tutors to cover English, Maths and Reasoning who can meet your child online at a time that suits you.
5. Metacognitive Notebook: sent to your home to help develop explicit thinking skills.

CURRICULUM

Targeted and focused on the 11+ topics for success

By embracing the science of learning, intelligent learning behaviours and cognitive tools and strategies pupils make progress towards success in their 11+ exams.

Our mapped revision curriculum covers all the key 11+ elements needed for success and incorporates the approach, language and special metacognitive tools that develop higher order thinking skills.

FEES

£80/hour for 1:1 sessions

There is no need to spend additional money on practice materials as each session gives you access to our Digital Platform and question bank.

£35: Online Mock exam and report: available in English, Maths, VR & NVR.

£75: Mock Interview practice sessions.

DATES

September: 11+ Grammar school exams
October: Completion of Senior school admissions form
November: ISEB pre-test exams
January: 11+ written exams
February / March: Interviews (independent schools only)

NOTES

PARENTAL FEEDBACK: Progress and attainments from the quick review tests are available for parents to review and assess areas of weakness.
QUIZLET: Sign-up to our [classroom](#) and complete our 11+ quizzes.
MOCK INTERVIEWS: build your child's confidence and understanding with a mock interview. Sign up for a practice with our experienced interviewer.

11+ BIG PICTURE

META-LEARNER and METACOGNITION

Developing a child as an independent thinker with a love of learning and gaining successful entry into their senior school is our exciting mission. We are here to develop meta-learners who are ready to thrive at school and beyond; armed with tools and strategies that enable them to make progress. They are confident in their abilities, eager to learn more and able to adjust their thinking in all situations. Parents often say, "all I want is for my child to be happy" which is important, but not always possible. Instead, let's say, "all I want is for my child to be prepared and able to get through anything." Becoming a meta-learner fills them with rocket fuel ready for blast off to a successful and independent life. [Watch our video](#) about becoming a Meta-learner.
